Dhaka-1362, Bangladesh

EDUCATION

- **Bangladesh University of Engineering and Technology (BUET)** *Dhaka, Bangladesh*
Bachelor of Science in Civil Engineering
Major: Transportation Engineering 2020 - 2025
 - CGPA: 3.74/4.00
- **Dhaka College** *Dhaka, Bangladesh*
Higher Secondary School 2017-2019
 - GPA: 5.00/5.00

ACADEMIC HONORS AND AWARDS

- **Dean's List (BUET)** *Academic Year*
Awarded for maintaining a CGPA above 3.75 for three consecutive years. 2020 – 2022
- **University Stipend (BUET)** *Academic Year*
Conferred for ranking among the top 10% of students based on academic performance in a year. 2022 – 2023

WORK EXPERIENCE

- **Lecturer** 2025 - Present
Department of Civil Engineering, Bangladesh University of Business and Technology (BUBT) Dhaka, Bangladesh

RESEARCH INTEREST

- Traffic Flow Theory
- Intelligent Transportation Systems
- Connected and Automated Vehicles
- Car-following Models
- Physics-Informed Machine Learning
- Traffic Simulation and Modeling
- AI/ML in Transportation
- Traffic Signal Control

RESEARCH EXPERIENCE

- **Undergrad Thesis: Access Egress Mode Choice Model for Dhaka's Mass Rapid Transit**

Supervised by Dr. Animesha Enam

Funded by RISE (Research and Innovation Centre for Science and Engineering)

Tools: R-programming language, Python, Google Map API

Contributions:

- Developed a revealed preference survey tailored to access-egress mode choice behavior.
- Conducted comprehensive field surveys at all 16 metro stations in Dhaka.
- Travel time and distance data were extracted using the Google Maps Distance Matrix API.
- Applied Multinomial Logit (MNL) model and Mixed Multinomial Logit (MMNL) Mixed using the Apollo package in R for discrete choice analysis.

- **Conference:**

Islam, J., Jahan, N., & Enam, A. (2025). "Access Egress Mode Choice Model for Dhaka's First Mass Rapid Transit". Paper presented at the **16th EASTS International Conference**, Surakarta, Indonesia.

- **Journal:**

Islam, J., Jahan, N., Enam, A. (2025). "Analysis of Access Egress mode choice for Dhaka's first mass rapid transit". *Journal of the Eastern Asia Society for Transportation Studies (EASTS)*.
<https://doi.org/10.11175/easts.16.PP4080>

ACADEMIC PROJECTS

• **Capstone Project: *Redevelopment of Signboard Pedestrian Overbridge and Neighboring Islands***

Tools: ETABS, SAP2000, IdeaStatica, AutoCad

Contributions:

- Developed structural model and design with SAP2000 and ETABS.
- Steel connections designed with IdeaStatica software.
- Produced all required engineering drawings using AutoCAD.
- Conducted traffic flow analysis to ensure the over bridge met pedestrian demand.

• **MATLAB Project: *Stress Strain Diagram of Steel***

Tools: MATLAB 2018b

Contributions:

- Performed tensile strength experiments on mild steel specimens using a Universal Testing Machine (UTM).
- Acquired load–deflection data from multiple samples and utilized data interpolation to address missing observations.
- Developed MATLAB scripts to construct stress–strain relationships and apply linear regression to the initial elastic region.
- Computed the modulus of elasticity from the fitted slope and identified the elastic limit through statistical evaluation of model fit.

SKILLS

- **Programming Languages:** Python, R, MatLab, C, C++
- **Simulations:** SUMO
- **Cloud Technologies:** Google Map API
- **Engineering & Drawing:** AutoCad, ETABS, SAP2000

ENGLISH LANGUAGE PROFICIENCY

IELTS: Overall Band Score: 7.0

Component Scores: Listening: 8.5 Reading: 7.0 Writing: 7.0 Speaking: 6.0

VOLUNTEER EXPERIENCE

• **Academic Team Member**

2020 - 2024

Bangladesh Math Olympiad

- Problem Setting and Evaluation

• **Coordinator**

2024 - 2025

ITE BUET Chapter

- Competition design and management
